

# Finance *WebViewer*

**Finance WebViewer** allows your users to view CIMS® III financial data using their web browser. Security is handled through a separate Access database and the **WebViewer** administration screen and employs existing account restrictions. **Finance WebViewer** retrieves your data directly from the IBM AS/400 for real time accuracy. The system administrator assigns the user member, confirms authority and restrictions and you are ready to explore your accounts and purchase orders via your browser.

In order to use our product you need to have the following installed:

- IBM AS/400 V4R5 running NCS PEARSON CIMS® III Software
- Windows 2000 Server running IIS 5.00, server patches must be up to date
- IBM Client Access Express ODBC Driver installed on the Windows Server
- Macromedia's Cold Fusion 5.0 or higher (Professional or Enterprise version) also installed on the Windows Server (version 4.5 will also work)

We offer installation support for thirty days from the date of purchase. In addition, you may purchase an annual subscription that provides support for one year that includes product maintenance, feature enhancement updates, non-toll free telephone and e-mail support. The annual subscription prices quoted are for purchases made at the time of the original sale. Special terms apply to purchases made after that time.

An unencrypted source code license is available. This form of license permits the licensee to alter and/or customize the **Finance WebViewer** application files. The standard application files come encrypted and are not modifiable by the licensee. The license does not grant the licensee the right to distribute or sell any portion of the **Finance WebViewer** application (standard or customized) and/or source code (standard or customized). Title to all copies of the Software (standard or customized) remains with Scepter 7 Technologies LLC. Scepter 7 Technologies LLC is the original author, the sole distributor and legal owner of its Software products.

Scepter 7 Technologies LLC does not warrant or provide support for customized software, unless the application files were customized by Scepter 7 Technologies LLC.

**Finance WebViewer** is licensed **ONLY** to single school districts on the basis of an unlimited Network/Site License. This one-time purchase will enable you to deploy our software throughout your school district on as many Windows 2000 servers as you want. Contact us for a custom quote if you represent a non-single school district such as an ISD or RESD. We do offer multiple district licensing

Be sure to read our Software End-User License Agreement prior to accepting and installing our software. You may request a copy in advance by contacting us.
